### Instructions for preparing your poster

- The poster boards have a format of 1,50 m x 1,20 m (upright format), any format fitting on those boards and fulfilling the criteria stated above is allowed.
- Existing posters may be re-used.
- If you want to prepare a new poster, you can use the templates provided by the Medical Faculty: <http://www.cdmed.ovgu.de/home/Wissenschaftsposter.html>
- Please also include the logo of the GC-I<sup>3</sup>:  
<http://www.cdmed.ovgu.de/home/Wissenschaftsposter.html> (Download-link at the bottom of the page)
- We suggest including the usual elements (rationale, hypothesis, data, conclusion, future plans). However, you are free in the weighting of these elements. This means that also projects which are still at an very early stage can and should be presented!
- During the evaluation the jury will expect a 2-minute-pitch for your poster. Please prepare this well and stick to the time limit, the quality of this pitch is an important part of the poster price evaluation.
